About the project

What is Cultural Bridges?

Cultural Bridges (CCIY) is an Erasmus+ KA210-YOU small-scale partnership that brings together three youth organisations from Spain, Poland, and France to foster intercultural understanding, fight discrimination, and promote social inclusion among young Europeans.

Over 18 months (December 2024 -- May 2026), the project creates spaces for youth from diverse backgrounds to learn from each other, challenge stereotypes, and build lasting connections across borders.

The challenge we address

Across Europe, young people continue to face barriers rooted in racism, discrimination, and social exclusion. Migrant and minority youth are disproportionately affected, often lacking access to meaningful opportunities for participation and integration. Cultural misunderstandings fuel division, and too few programmes exist that address these issues through direct intercultural engagement.

> **Cultural Bridges** was designed in response to this reality -- because inclusion begins with encounter.

Our approach

The project is built on three pillars:

Pillar	Description
Non-formal education	Interactive workshops, peer learning, and creative expression to build intercultural competences outside the classroom.
Intercultural immersion	Direct exchange experiences across three countries, bringing young people face to face with different cultures, traditions, and perspectives.
Youth empowerment	Equipping participants with the skills, confidence, and networks to become active agents of inclusion in their own communities.

Our partners

The consortium unites three experienced youth organisations, each contributing unique expertise and a strong local network.

Testimonials

Voices from the Cultural Bridges experience

> *"Before Warsaw, I thought I understood diversity -- but meeting people from Spain and France, hearing their stories, changed everything. I realised that inclusion is not just a concept; it is something you build together, every day."*
>
> **-- Marta K., 24, Warsaw, Poland**

> *"I come from a small town near Lleida where there are very few opportunities to meet people from other countries. This project gave me the chance to discover that what unites us is so much stronger than what divides us. I want to keep building those bridges."*
>
> **-- Youssef A., 21, Lleida, Spain**

> *"The workshops in France helped me find words for experiences I had never been able to express. As a young woman with a migrant background, I often felt invisible. Cultural Bridges made me visible -- and gave me a voice."*
>
> **-- Aminata D., 23, Boissy-Saint-Leger, France**

> *"What surprised me most was how much we could learn through art, music, and conversation -- without textbooks or exams. Non-formal education works because it starts from who you are, not from what you should know."*
>
> **-- Jakub R., 27, Warsaw, Poland**
