EXECUTIVE SUMMARY

The "Cultural Bridges: Strengthening Interculturality and Social Inclusion among Youth" project, funded under the Erasmus+ KA210-YOU programme, has brought together three youth organisations from Spain, Poland, and France to develop innovative approaches to intercultural education and social inclusion. Over the course of its 18-month implementation period (December 2024 -- May 2026), the project has produced a substantial body of educational materials, methodological frameworks, and community-building tools designed to foster understanding, dialogue, and active participation among young people from diverse cultural backgrounds.

This Sustainability and Exploitation Plan sets out the strategy through which the consortium will ensure that all project results -- both tangible outputs and intangible outcomes -- continue to generate impact well beyond the funded project period. The plan addresses five interconnected dimensions of sustainability:

Institutional sustainability concerns the integration of project methodologies, tools, and learnings into the regular operations of each partner organisation. All three partners have committed to embedding the Cultural Bridges approach within their ongoing youth work programmes, training curricula, and organisational strategies.

Financial sustainability outlines how core project activities can continue without Erasmus+ funding, identifies activities that require additional resources, and maps potential funding sources at local, national, and European level. The consortium has already identified follow-up funding opportunities, including a potential KA220-YOU Strategic Partnership application.

Content and material sustainability details the open-access strategy for all educational resources produced by the project. All materials will be published under Creative Commons licensing, hosted on stable digital platforms, and made available in multiple languages to maximise reach and reuse.

Network and community sustainability presents the plan for maintaining and growing the trinational youth network established during the project. This includes an alumni engagement strategy, an online community platform, and a calendar of annual events designed to keep participants connected and active.

Exploitation and mainstreaming describes how project results will be transferred to new contexts, adopted by other organisations, and integrated into local and regional youth policies. The consortium will actively promote the uptake of project outputs through targeted dissemination, training-of-trainers activities, and policy advocacy.

The plan includes a detailed action plan with concrete tasks, responsible partners, timelines, and resource requirements for the short term (0-6 months post-project), medium term (6-18 months), and long term (18-36 months). It also identifies potential risks to sustainability and sets out mitigation

strategies, along with a monitoring framework including key performance indicators and annual review meetings.

This Sustainability and Exploitation Plan represents a shared commitment by all three partner organisations to maximising and extending the impact of the Cultural Bridges project for the benefit of young people across Europe.

SECTION 2: EXPLOITATION STRATEGY

2.1 Exploitation Objectives

The exploitation strategy for the Cultural Bridges project aims to:

1. Ensure the continued use and application of all project outputs beyond the funded period
2. Facilitate the transfer and adaptation of project results to new geographical, organisational, and thematic contexts
3. Promote the integration of project methodologies into mainstream youth work practice and policy
4. Maximise the return on the European investment by extending the reach and impact of project results

2.2 Exploitation of Each Result

2.2.1 Educational Guide on Intercultural Youth Work (T1)

Continued use within the consortium:

- The Educational Guide will become a core reference document in the training programmes of all three partner organisations. Associacio Juvenil Ndiatiguia Joves Units will use it as the basis for its regular intercultural workshops in Lleida. UGPA POLSKA will integrate it into its youth empowerment programmes in Warsaw. Un Geste pour l'Avenir will incorporate its methodologies into its community education activities in Boissy-Saint-Leger and the wider Ile-de-France region.

Transfer to other organisations:

- The guide will be promoted to youth organisations across Europe through the SALTO-Youth Toolbox, the Erasmus+ Project Results Platform, and professional networks such as the European Youth Forum and national youth councils. Partner organisations will present the guide at relevant conferences, training events, and network meetings.
- A "train-the-trainer" session will be organised within 6 months post-project to equip external youth workers with the skills to use the guide effectively in their own contexts.

Mainstreaming into policies:

- The coordinator will share the guide with the Lleida City Council Youth Department and the Catalan Youth Agency (Agencia Catalana de la Joventut) as a resource for municipal and regional youth policy implementation. UGPA POLSKA will present it to the Warsaw Municipal Office for Social Communication. Un Geste pour l'Avenir will share it with the Direction Departementale de la Cohesion Sociale du Val-de-Marne.

2.2.2 Pedagogical Content Pack (T2)

Continued use within the consortium:

- The 20 structured learning activities will be incorporated into the regular programme of activities of all partner organisations. Activities will be used in local youth sessions, volunteer training, and community events. The modular design allows individual activities to be used independently or combined into longer programmes.

Transfer to other organisations:

- The content pack will be made freely available for download on partner websites and the Erasmus+ Results Platform. It will be promoted through SALTO-Youth, the European Youth Portal, and relevant online communities for youth workers.
- Partners will actively seek opportunities to present the content pack at youth worker training events, Erasmus+ contact-making seminars, and national youth work conferences.

Adaptation for new contexts:

- The content pack has been designed with adaptability in mind. Each activity includes guidance on how to modify it for different group sizes, age ranges, cultural contexts, and language abilities. Partners will encourage users to adapt and share their own versions, contributing to a growing repository of intercultural education resources.

2.2.3 Awareness Campaign Materials (T3, T4, T5, T6)

Continued use:

- Brochures, posters, articles, and videos will continue to be used by all partners in their communication and outreach activities. Materials will be displayed at partner premises, distributed at events, and shared through digital channels.
- The video series will remain publicly accessible on YouTube and will be promoted through social media on an ongoing basis, with periodic re-sharing tied to relevant international days (e.g., World Day for Cultural Diversity, International Youth Day, European Day of Languages).

Transfer and reuse:

- All awareness campaign materials will be published under Creative Commons Attribution-ShareAlike 4.0 International (CC BY-SA 4.0) licensing, allowing other organisations to freely reuse, adapt, and redistribute them with appropriate credit.
- The poster designs will be made available as editable templates, enabling other organisations to customise them with their own branding and local context.

2.2.4 Community Project Proposals (T7)

Follow-up and implementation:

- The 9 community project proposals developed by participants represent concrete plans for local intercultural action. Partner organisations will support participants in pursuing implementation by connecting them with local funding sources, providing mentoring, and facilitating contact with relevant local authorities and community organisations.

- A follow-up webinar will be organised 3 months post-project to check on the progress of community proposals and provide additional guidance.

Scaling and replication:

- The community project proposals will be compiled into a "Community Action Booklet" and shared as an example of youth-led intercultural initiatives. This will serve as inspiration for future participants and other youth organisations seeking to develop community-based projects.

2.2.5 Video Testimonials (T8)

Continued use:

- Video testimonials will be used as promotional material for future intercultural projects and activities organised by the consortium. They provide powerful, authentic narratives that can motivate prospective participants, convince stakeholders, and demonstrate impact to funders.
- Selected testimonials will be featured in future Erasmus+ applications as evidence of project impact and participant satisfaction.

2.2.6 Youthpass Certificates (T9) and Evaluation Reports (T10)

Institutional learning:

- Evaluation reports will be analysed and used to improve the design and delivery of future intercultural programmes within each partner organisation. Key findings and recommendations will be documented in internal organisational learning notes.
- Aggregated Youthpass data will be used to demonstrate the competence development outcomes of the Cultural Bridges methodology, supporting future funding applications and accreditation processes.

5.3 Identified Funding Sources

The consortium has mapped the following funding sources for post-project sustainability activities:

European funding:

- Erasmus+ KA220-YOU Strategic Partnerships in Youth (for a scaled-up follow-up project)
- Erasmus+ KA1 Youth Mobility (for exchanges and training activities)
- European Solidarity Corps (for volunteering and solidarity projects)
- European Youth Foundation -- Council of Europe (pilot activities, educational activities)
- Citizens, Equality, Rights and Values Programme (CERV)

National funding:

- Spain: Instituto de la Juventud (INJUVE) grants; Catalan Youth Agency (Agencia Catalana de la Joventut) grants; Lleida City Council youth programme funding
- Poland: National Agency for Academic Exchange (NAWA); Ministry of Family and Social Policy youth grants; Warsaw municipal grants
- France: Agence du Service Civique; Fonds d'Experimentation pour la Jeunesse (FEJ); Val-de-Marne departmental grants; regional DRJSCS funding

Other sources:

- Open Society Foundations (youth and inclusion projects)
- Robert Bosch Stiftung (intercultural projects)
- Corporate CSR partnerships (local businesses with diversity commitments)

5.4 Revenue-Generating Possibilities

While the Cultural Bridges project outputs are primarily intended for free and open access, the consortium has identified modest revenue-generating possibilities that could support sustainability:

1. **Fee-based training services:** Partners can offer paid training sessions on intercultural youth work methodology for organisations outside the non-profit sector (e.g., corporate diversity training, school teacher professional development). The Educational Guide and Pedagogical Content Pack provide ready-made content for such services. Estimated potential: 500-2,000 EUR per training delivery.

1. **Consultancy services:** The consortium's expertise in intercultural programme design, developed through Cultural Bridges, can be offered as consultancy to organisations developing their own intercultural initiatives. This includes programme design advice, material review, and evaluation framework development. Estimated potential: 1,000-3,000 EUR per consultancy engagement.

1. **Event organisation:** The consortium can organise intercultural events (seminars, festivals, exchange programmes) on a cost-recovery basis, charging registration fees or securing sponsorship to cover costs.

Any revenue generated through these activities will be reinvested in sustaining the Cultural Bridges network and producing updated educational resources.

5.5 Planned Future Erasmus+ Applications

The consortium has agreed to submit a joint application under the Erasmus+ KA220-YOU programme (Strategic Partnerships in Youth) in the 2027 call. This follow-up project, tentatively titled "Cultural Bridges 2.0: Scaling Intercultural Youth Action Across Europe," will:

- Build directly on the methodology, materials, and network developed in the current project
- Expand the consortium to include 2-3 additional partner organisations from new countries
- Develop an online learning platform for intercultural youth work
- Create a training-of-trainers programme to multiply the reach of the methodology
- Target a budget of 120,000-250,000 EUR over a 24-month period

In addition, individual partners may submit KA1 Youth Mobility applications for exchanges and training courses that use the Cultural Bridges methodology.

SECTION 6: NETWORK AND COMMUNITY SUSTAINABILITY

6.1 Trinational Youth Network Maintenance Plan

The Cultural Bridges project has brought together over 60 young people from Spain, Poland, and France into an active trinational network. Maintaining this network is essential for sustaining the project's impact and social capital. The following measures will ensure the network remains active and vibrant:

Governance structure:

- A network steering group of 6 members (2 per country) will be established from among the most active participants. This group will meet online quarterly to plan network activities and maintain communication.
- Each partner organisation will designate a staff contact person as the network liaison, responsible for supporting the steering group and facilitating communication with the organisation.

Communication infrastructure:

- A dedicated WhatsApp/Telegram group for network members will continue to operate as the primary informal communication channel.
- A quarterly email newsletter will be sent to all network members, sharing updates, opportunities, and inspiring stories.
- The project social media accounts will serve as the public face of the network, sharing content and engaging with a broader audience.

Network activities:

- At least one online network event per quarter (e.g., virtual cafe, thematic discussion, guest speaker session, skill-sharing workshop)
- An annual in-person network gathering, hosted on a rotating basis by each partner country (subject to funding availability)
- Collaborative online projects (e.g., joint social media campaigns for International Days, online cultural exchange activities)

6.2 Alumni Engagement Strategy

To sustain participant involvement and generate ongoing impact, the consortium will implement the following alumni engagement strategy:

Strategy	Description	Frequency
Alumni newsletter	Quarterly digital newsletter with network updates, opportunities, and alumni spotlights	Every 3 months
Alumni as facilitators	Inviting experienced participants to co-facilitate workshops and activities for new groups	Ongoing
Peer mentoring	Matching alumni with new participants in future intercultural activities	Per activity
Alumni testimonials	Collecting updated testimonials from alumni about how the project has influenced their lives and careers	Annually
Professional development	Sharing relevant training, volunteering, and employment opportunities with the alumni network	Ongoing
Community project follow-up	Supporting alumni in implementing their community project proposals and documenting outcomes	Ongoing

6.3 Online Community Platform

The network's online presence will be maintained through the following platforms:

Platform	Purpose	Management	Frequency
Instagram (@culturalbridges_eu)	Public engagement, awareness, inspiration	Shared among partners, with coordinator oversight	2-4 posts per month
Facebook (Cultural Bridges EU)	Community building, event promotion, resource sharing	Shared management	2-4 posts per month
WhatsApp/Telegram Group	Internal network communication, informal exchanges	Participant-led, with partner moderation	Continuous
YouTube Channel	Hosting video content, testimonials, webinar recordings	Coordinator-managed	As new content is produced

SECTION 7: CONTENT AND MATERIAL SUSTAINABILITY

7.1 Open Access Strategy

All educational materials and resources produced by the Cultural Bridges project will be made freely and openly available to ensure maximum accessibility, use, and impact. The open access strategy is grounded in the following principles:

1. **Universal access:** All materials will be freely downloadable from multiple platforms without registration requirements or paywalls.
2. **Open licensing:** All materials will be published under an appropriate Creative Commons licence to enable legal reuse and adaptation.
3. **Multiple formats:** Where feasible, materials will be provided in multiple formats (PDF, editable document, web version) to accommodate different user needs.

4. **Multilingual availability:** Core materials will be available in at least English, Spanish, French, and Polish. Additional translations will be pursued as resources allow.

7.2 Hosting and Maintenance of Digital Resources

The long-term accessibility of digital resources will be ensured through a multi-platform hosting strategy:

Resource	Primary Host	Secondary Host(s)	Responsible	Guaranteed Availability
Educational Guide (PDF)	Coordinator website	Erasmus+ Project Results Platform, SALTO-Youth Toolbox	Coordinator	Minimum 5 years post-project
Pedagogical Content Pack (PDF)	UGPA POLSKA website	Erasmus+ Project Results Platform, SALTO-Youth Toolbox	UGPA POLSKA	Minimum 5 years post-project
Brochures (PDF)	All partner websites	Erasmus+ Project Results Platform	All partners	Minimum 5 years post-project
Awareness Campaign Posters (digital files)	Un Geste pour l'Avenir website	Coordinator website	Un Geste pour l'Avenir	Minimum 5 years post-project
Campaign Articles	Partner websites	Archived copies on Erasmus+ Platform	All partners	Minimum 5 years post-project
Videos (MP4)	YouTube Channel	Partner websites (embedded)	Coordinator	Minimum 5 years (YouTube indefinite)
Video Testimonials	YouTube Channel	Partner websites (embedded)	Coordinator	Minimum 5 years (YouTube indefinite)

Maintenance protocol:

- The coordinator will conduct a semi-annual link check to verify that all resources are accessible on all platforms.
- If any primary hosting platform becomes unavailable, the responsible partner will migrate the resource to an alternative platform within 30 days.
- An offline backup of all digital resources will be maintained by the coordinator and each partner organisation.

7.3 Creative Commons Licensing

All project outputs will be published under the following Creative Commons licence:

Creative Commons Attribution-ShareAlike 4.0 International (CC BY-SA 4.0)

This licence allows others to:

- **Share** -- copy and redistribute the material in any medium or format
- **Adapt** -- remix, transform, and build upon the material for any purpose, including commercial

Under the following terms:

- **Attribution** -- Users must give appropriate credit to the Cultural Bridges project and the Erasmus+ programme, provide a link to the licence, and indicate if changes were made.
- **ShareAlike** -- If users remix, transform, or build upon the material, they must distribute their contributions under the same licence.

The following attribution text will be included in all published materials:

> *"This resource was developed as part of the 'Cultural Bridges: Strengthening Interculturality and Social Inclusion among Youth' project (KA210-YOU-F84AFCB3), co-funded by the Erasmus+ Programme of the European Union. Licensed under CC BY-SA 4.0."*

7.4 Translation and Adaptation for New Contexts

To maximise the reach and usability of project materials beyond the three partner countries, the consortium will pursue the following translation and adaptation strategy:

Current language availability:

- English: All core materials (Educational Guide, Pedagogical Content Pack, brochures, project summary)
- Spanish: Educational Guide, brochures, project summary
- French: Educational Guide, brochures, project summary
- Polish: Pedagogical Content Pack, brochures, project summary

Priority translations (to be pursued within 18 months post-project):

- German, Italian, and Portuguese versions of the Educational Guide executive summary and selected activities from the Pedagogical Content Pack
- Translation will be pursued through volunteer translators (e.g., through European Solidarity Corps volunteers, university language departments, or partner networks)

Adaptation guidelines:

- The Educational Guide includes a dedicated chapter on "Adapting the Cultural Bridges Approach to Your Context," providing step-by-step guidance for practitioners in different countries, cultural contexts, and organisational settings.
- Users who create adaptations will be encouraged to share them with the consortium for inclusion in a growing online repository of adapted materials.

\newpage

SECTION 8: RISK ASSESSMENT

8.1 Identification of Risks to Sustainability

The consortium has identified the following potential risks that could affect the long-term sustainability of project results and impact:

Risk ID	Risk Description	Likelihood	Impact	Overall Risk Level
R1	Partner disengagement: One or more partners reduce their commitment to post-project activities due to competing priorities, organisational changes, or loss of motivation	Medium	High	High
R2	Funding gaps: Inability to secure additional funding for activities that require financial resources (e.g., annual network meeting, training-of-trainers, material translation)	Medium	Medium	Medium
R3	Staff turnover: Key staff members involved in the project leave their organisations, resulting in loss of institutional memory and expertise	Medium	Medium	Medium
R4	Technology obsolescence: Digital platforms used for hosting resources become obsolete, shut down, or change their terms of service	Low	Medium	Low-Medium
R5	Network attrition: Participant engagement in the alumni network declines over time as members move on to other activities or life stages	High	Medium	Medium-High
R6	Content becoming outdated: Educational materials become less relevant due to changes in the social, political, or educational context	Low	Medium	Low-Medium
R7	Intellectual property disputes: Disagreements between partners or with third parties regarding ownership or use of project materials	Low	High	Medium
R8	External factors: Political, economic, or social changes (e.g., reduced support for intercultural programmes, EU funding cuts) that undermine the enabling environment for project sustainability	Low	High	Medium
R9	Failure to secure follow-up Erasmus+ project: The planned KA220-YOU application is unsuccessful, limiting the resources available for scaling up	Medium	Medium	Medium

8.2 Mitigation Strategies

Risk ID	Mitigation Strategy
R1	**Partner engagement protocol:** Establish a formal post-project collaboration agreement signed by all partners, specifying minimum commitments (e.g., quarterly meetings, annual reporting, material hosting). Include regular check-in calls (at least quarterly) to maintain relationships and motivation. Identify a secondary contact person in each organisation to ensure continuity if the primary contact becomes unavailable.
R2	**Diversified funding strategy:** As outlined in Section 5, pursue multiple funding sources at local, national, and European levels. Prioritise activities that require no or minimal additional funding. Build a reserve by allocating a small portion of any revenue-generating activities to a sustainability fund. Develop concise project summary and impact documentation that can be quickly adapted for different funding applications.
R3	**Knowledge management:** Document all project processes, methodologies, and key contacts in a comprehensive project archive accessible to all partners. Ensure that at least two people in each organisation are familiar with the project's approach and outputs. Include Cultural Bridges methodology in the standard training materials for new staff and volunteers.
R4	**Multi-platform hosting:** As outlined in Section 7.2, all digital resources will be hosted on multiple platforms. Maintain offline backups. Monitor platform changes and be prepared to migrate to alternatives. Use standard file formats (PDF, MP4) that are widely supported across platforms.
R5	**Active engagement strategy:** Implement the alumni engagement strategy detailed in Section 6.2, providing regular value to network members through opportunities, resources, and community. Create tiered engagement levels (active participants, occasional participants, passive subscribers) to accommodate different levels of involvement. Regularly recruit new members through partner activities.
R6	**Periodic review and update:** Conduct a content review every 18 months to assess the continued relevance and accuracy of all educational materials. Collect user feedback on material quality and relevance. Plan for a revised edition of the Educational Guide within 2-3 years, incorporating lessons learned and updated content.
R7	**Clear IP framework:** The consortium partnership agreement includes clear provisions on intellectual property ownership (joint ownership of project outputs) and use rights. The CC BY-SA 4.0 licensing ensures that all materials can be freely used and adapted. Any future disputes will be resolved through mediation between partners.
R8	**Adaptive strategy:** Monitor the political and funding environment regularly. Maintain flexibility in the sustainability plan to adapt to changing circumstances. Diversify the project's positioning to appeal to different policy agendas (integration, education, youth employment, civic participation) beyond solely intercultural dialogue.

R9	**Multiple application strategy:** Do not rely solely on a single follow-up application. Submit applications to multiple programmes and calls. Ensure that each partner also submits individual applications (e.g., KA1 mobility) that can partially sustain network activities even without a joint KA2 project.

- Each partner will submit a brief sustainability progress report (1-2 pages) every 6 months, covering their KPI performance, activities undertaken, and challenges encountered.
- The coordinator will compile an annual sustainability monitoring report consolidating input from all partners, assessing overall progress, and recommending adjustments to the plan.
- These reports will be shared with the full consortium and made available to the national agency upon request.

10.5 Adaptive Management

The sustainability plan is a living document. Based on monitoring findings, the consortium may:

- Adjust timelines for specific actions if circumstances change
- Add new actions in response to emerging opportunities
- Reprioritise activities based on resource availability and impact potential
- Revise KPI targets based on actual performance and external context

Any significant changes to the plan will be discussed and agreed upon at the quarterly check-in or annual sustainability review meeting.

SECTION 11: CONCLUSION AND COMMITMENT

11.1 Summary Statement

The "Cultural Bridges: Strengthening Interculturality and Social Inclusion among Youth" project has produced a rich portfolio of educational resources, awareness-raising materials, and community-building outcomes that have the potential to generate lasting impact on young people, organisations, and communities across Europe. This Sustainability and Exploitation Plan sets out a clear, realistic, and ambitious roadmap for ensuring that this potential is fully realised.

The plan is built on the conviction that sustainability is not an afterthought but an integral part of project design and implementation. Throughout the project lifecycle, the consortium has taken deliberate steps to create outputs that are durable, adaptable, and openly accessible. The partnerships, networks, and institutional capacities developed during the project provide a strong foundation for continued action.

The consortium recognises that sustainability requires ongoing effort, commitment, and resources. This plan provides the framework for that effort, while remaining flexible enough to adapt to changing circumstances, emerging opportunities, and lessons learned along the way.

11.2 Partner Commitment Statement

We, the undersigned representatives of the Cultural Bridges consortium, hereby affirm our commitment to the sustainability and exploitation of the project's results as set out in this plan. We commit to:

1. Maintaining and promoting all project outputs in accordance with the open access strategy described herein
2. Integrating the Cultural Bridges methodology and learnings into our organisations' regular activities
3. Actively participating in the post-project dissemination, networking, and partnership-building activities outlined in this plan
4. Contributing to the monitoring and review of sustainability progress through regular reporting and participation in review meetings
